PRODUCTIVE CLEANING  
IN EVERY DETAIL

# SCRUBBER DRYER WITH MORE EASE-OF-USE AND COST-EFFICIENCY

The Nilfisk SC500 walk-behind scrubber dryer is carefully designed to improve productivity and drive down your total cleaning costs. These significant benefits are achieved through more ease-of-use and a series of technical features enabling daytime cleaning and the most effective use of water and detergent. A reliable choice for cleaning companies, hospitals, schools, offices, supermarkets, shops, sports centers, restaurants, hotels, and production floors.

Productivity is taken to a new level by the automatic adjustment of the water/detergent solution flow according to the speed of the machine. By using this control, which ensures a consistent cleaning result and an optimized consumption of water and chemicals, the operator can focus on getting the job done.

Cleaning costs are reduced due to several features. The sustainable Nilfisk Ecoflex system offers very flexible use of detergent, and also water-only cleaning, just by pushing a button. Also driving down costs is the opportunity to introduce more daytime cleaning due to the remarkably low sound level of the SC500.

- Effective: 53 cm brush deck with brush speed control depending on floor condition
- Powerful: Double pressure function can be activated when needed
- User-friendly: Actuator motor to lower/raise the brush deck
- Consistent cleaning: Solution flow of detergent/water automatically controlled by speed
- Settings effectively controlled: Separate keys for Superuser and Operator
- Plastic squeegee with patented elastic strap system for easy cleaning and fast blade change

Informative digital display, intuitive icon buttons and new ergonomic drive paddle

Productive: 40/40 liter water tanks and low energy consumption providing up to 5 hours of running time

Utility box with integrated mop holder (optional).

Water filling system with easy connection and automatic shut-off when tank is full (optional).

Ideal for daytime cleaning: Sound level reduced to just  $60 \pm 3$  dB(A) due to new low noise Vac motor system with silent mode setting.

# RELIABILITY IS ALSO OUR MANTRA WHEN IT COMES TO SERVICE

Easy and quick access to professional service is a key factor in running your operations smoothly, predictably, and with maximum uptime. We are ready to assist you in choosing the service contract that best suits your operations.

## SERVICE SOLUTIONS STANDARD – PROFESSIONAL MAINTENANCE

Your contract encompasses two yearly maintenance visits and 48 hours response time. Breakdown visits and spare parts are billed separately.

## SERVICE SOLUTIONS PREMIUM – MAXIMISED UPTIME

If uptime is your absolute top priority and key concern, Service Solutions Premium is the best choice. A quarterly maintenance visit is included, and there are no sudden financial surprises.

## SERVICE SOLUTIONS PLUS – OPTIMISED PERFORMANCE

With the Plus solution you have a firm grip on your maintenance and repair costs while knowing that your performance is never compromised, only optimised.

Robust and chemical resistant  
polyethylene tanks

2 key system with separate  
setting controls for the Superuser  
and the Operator

New solution flow controlled  
automatically by the speed for  
consistent cleaning results and  
optimized consumptions

Easy click on/off for the brush/  
padholder by button on the  
dashboard

Double pressure - up to 30kg  
- for persistent dirt

Recovery tank can be tilted  
giving full access to batteries and  
Ecoflex system

Transparent hose to check water  
level from operator's position

Standard filling hose for easy and  
fast water tank refilling

## TECHNICAL SPECIFICATIONS

Description	Unit	SC500 53B	SC500 53 B Full package
Voltage	V	24	24
Rated power	W	930	930
