

RELIABLE
DOWN-TO-EARTH
EFFICIENCY

IT MAKES CLEANING
BOTH ECONOMICAL
AND PRODUCTIVE

TRUE INNOVATION MORE CLEANING – LESS MACHINE!

The vast majority of ride-on professional sweeping jobs demand a machine that is compact, manoeuvrable and reliable. The SR 1101 represents simplicity and robustness in its most sophisticated form. Recommended for factory warehouses, car parks and outside areas such as parks and gardens.

The SR 1101 makes cleaning both economical and productive. Its easy to operate and self-explanatory operating panel means less operator training time needed.

The SR 1101 is available in both battery and petrol versions for indoor or outdoor operation with a large range of optional accessories which provides the right tools for specific jobs.

Accessory flexibility permits better and faster cleaning. Light debris in corners or above floor level can be quickly collected with the remote on-board vacuum system.

- Solid metal traction motor support and broom motor circuit breakers provide greater reliability and less downtime
- Excellent filtering capacity and large hopper means that more debris can be collected without creating dust
- Adjustable steering column, heel & toe pedal for directional control, plus optimal all-around visibility provide ergonomic and safer operation
- Extra long running time (6 hours) made possible by optional battery tray. 4 hours running time with standard batteries
- Quality design includes polyethylene construction and steel frame body for rugged, professional use

” Superb manoeuvrability and tight turning radius permits cleaning in narrow, congested areas “

Nilfisk's famous no-tools concept allows fast and easy replacement of brushes and filter for minimal downtime

The hopper capacity is extremely large to extend operational time

An electrical filter shaking system cleans the filter automatically every 5 minutes

Large range of optional accessories provides the right tools for specific jobs e.g. carpet kit, special filters and brushes, overhead guard, 2x18 litres hopper containers etc.

RELIABILITY IS ALSO OUR MANTRA WHEN IT COMES TO SERVICE

A Nilfisk machine functions optimally when cared for by regular service and maintenance visits. Therefore we have created the optimal service solution: four levels of service reflecting different requirements and an optional supply of a substitute machine in critical situations.

24-HOUR SERVICE

Full Service+ Solution

A total coverage package offering four maintenance visits a year + service at a known fixed cost. Optimal for customers with a need for extensive daily cleaning. Labour, travel expenses, spares and parts are all included.

Full Service Solution

A package offering four maintenance visits a year + service. Ideal for customers who clean daily. Labour, travel expenses and spares are included.

Standard Service Solution

This package provides two preventative maintenance visits a year. Labour and travel expenses are included.

Subscription Solution

By entering the subscription contract, the customer agrees to a minimum of one maintenance visit per year.

Dust panel filter has 4.3 m² of surface area for better dust control

70 litre hopper offers greater dirt storage and less emptying time

No tools needed to access brushes and filter

Large size flap allows pick-up of larger debris

Adjustable seat and steering column for ergonomic and safe operation

Ergonomic and robust levers to raise and lower all brushes

Battery or petrol versions available for indoor or outdoor operation
