

Nilfisk Road Sweepers

Nilfisk RS 1301

Intelligent design for modern city cleaning

High pressure cleaner extending the units' productive use is available depending on selected machine configuration

The multi-level dumping system enables emptying of the 1300 litre capacity hopper at heights from 80 to 160 cm

City cleaning today needs to meet a number of demands. It has to be carried out efficiently in terms of both performance and cost; it has to meet environmental considerations; and it has to meet the challenge of overcoming congestion. The Nilfisk RS 1301 has been intelligently designed with all these priorities in mind.

This superb road sweeper has the largest and highest suction nozzle in its class, a hydraulic flap for picking up bottles and large debris, and a powerful airflow to speed up the job. It has the flexibility and versatility to clean around parked cars and other obstacles, to sweep sidewalks and, with the third brush, on the MAXI version, has a sweeping path 2.3 metres wide. RS1301 is now available with powerful Euro 4 engine.

Productivity is assured, and to ensure that maintenance costs are held in check, the new Maintenance Tracking System is standard on the machine to optimise usage.

Technical specifications

Description	Unit	RS 1301 MAXI	RS 1301 MAXI EURO4
Motor power source		Diesel 67kW 4cyl	Diesel 70kW 4cyl
Productivity rate theoretical/actual	m ² /h	27.600/19500	27.600/19.500
Working width w/2 side brooms	mm	1.600	1.600
Working width w/3rd side broom	mm	2.300	2.300
Max speed	km/h	22	22
Max climbing rate	%	24	24
Water tank capacity	l	230	230
Hopper volume	l	1.300	1.300
Max. dumping height	cm	80-160	80-160
Length x width x height	cm	416x135x220	416x135x220
Weight	kg	2.800	2.800
