

INNOVATION AND PERFORMANCE

Round 45 is the last news in the Ghibli's scrubber dryers range. The innovative and functional design makes the machine ergonomic and easy to use in the daily activities. The technical features and the high level innovations – 45 liters tank capacity, three hours running time, the control panel with display, the double brush pressure, the silent mode function and the new chemical mixing system – make Round 45 something unique in its market segment, ideal for effective cleaning results in every kind of floor/environment.

Control panel with display.

Access password (it can be enabled on demand)

MANOEUVRABILITY:
the new ergonomic, **“rotating” handle** activates all Round 45 working functions, guaranteeing the max reliability and comfort.
The **pivoting wheels** under the chassis ensure the best manoeuvrability and control.

PERFORMANCE:
the double brush **pressure** and the chemical mixing system ensure the right flexibility and the best cleaning results. The powerful vac motor together with the efficient squeegee system (**compact and adjustable**) guarantee top drying performances even in hard to clean areas.

Day cleaning.

CHEMICAL MIXING SYSTEM:
all the Round 45 battery models can host the detergent system (standard or optional, depending on the variants). The operator can set up the chemical ratio directly by the **control panel**. Flexible, precise and efficient.

Solution tank.

INNOVATION AND CONTROL:
all the main working functions can be managed directly by the control board. Thanks to the **display**, the user can easily and constantly check the Round 45 status

Rotating handle

Pivoting wheels under the chassis and their short distance

PRODUCTIVITY:
45 liters tank capacity, the wide cleaning path (**530** and **610 mm**, depending on the variant), the great running time(3 hours), the remarkable speed (up to **5 km/h**). High quality features which combined together ensure the maximum productivity. For an easy daily job in any kind of surface/area.

Adjustable and compact squeegee

Double brush pressure (by pedal).

SILENT:
as soon as you push the **silent mode** button on the control panel, Round 45 becomes immediately more “quiet”, without losing its performance. Ideal for day cleaning and in all the environments (hospitals, schools, ...) where silence is strictly required.

ROUND 45 “FAMILY”

A wide and diversified offer to match every different customer need.

Electric, single brush (21")

Control panel

25 mt detachable cable

Battery operated, single brush (21"), with traction

105 Ah batteries

Drive motor

Battery operated, single brush (21")

Double knob for brush regulation

76 Ah batteries

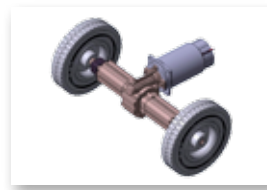

Battery operated, twin brushes (24"), with traction

Twin brushes with splash guard

105 Ah batteries

Drive motor

* 2 on standard equipment

CONTROL PANEL WITH DISPLAY*
for an easy and intuitive control and an immediate feedback while working

Chemical Mixing System: the operator can easily select by control board the right detergent ratio for every cleaning task. Maximum flexibility and performance.

Speed increase/decrease
(up to 5 km/h).

“Silent mode” function activation:
perfect for day cleaning and for working in all the areas where silence is a “must” (hospitals, rest homes, ...)

On/off button.

Brush activation + water flow control.

Pulsante di retromarcia.

New rotating handle
to activate all the main functions: ergonomics and comfort in the daily work.

(*) of driven versions

ROUND 45 at a glance

Removable cover
easy access to the recovery tank

Filling port
Large filling port to quickly and easily fill the solution tank (filling hose available as standard)

Solution tank filling hose
on standard equipment

Removable cover
easy access to the brush motor

Brush regulation (by knob)
to give the machine the right speed and direction

Floating splash guard
with bristles to avoid water splashes and protect the deck

Rotating handle
comfort and ease of use

Drain hose
squeezeable and with “screw” cap, to quickly drain the recovery tank

Polyethylene tanks
maximum resistance against cracks and dents

Transparent solution hose
to check at any time the clean water level

Squeegee
compact, adjustable, effective

Pivoting wheels
for the best manoeuvrability and control
